

dancing under stars

(Verse1)

Barefoot on a midnight ground.
No one else, no city sound.
Silver light on your skin.
Night pulls us deeper in.

(Chorus)

We're dancing under stars tonight.
Lost in sparks of silver light.
No tomorrow, just this view.
The sky above, and me, and you.

(Verse 2)

Shadow sway your hand in mine.
Hearts keep perfect, quiet time.
Every step we lose control.
Stars are spinning in our souls.

(Chorus)

(Bridge)

If the world fades out of sight.
Let it vanish with the light.
All we need is where we stand.
Heaven written in your hand.

(Chorus)
