

i am blessed

((Verse 1))

I close my eyes and see the light
Waking from the longest night
Every worry fades away
In the warmth of a brighter day

(Chorus)

Oh, I am blessed, I can feel it now
Peace is settling on my brow
Light is breaking, the path is clear
I am loved and I am here

(Verse 2)

Shadows gone, the sky is blue
Every dream is coming true
A gentle voice whispers my name
Nothing here will be the same

(Bridge)

The heavy chains have turned to dust
In this quiet, sacred trust
I lift my hands to take it in
Let the brand new life begin

(Chorus)
